- 1-year warranty (Parts & Services)

Koshin "HAND ROTARY DRUM PUMP" is a very simple and useful device both in everyday industrial use and in home, garage use. With SB-20 Drum pump you can easily manually overflow from the barrels, canisters and tanks the most liquids. To pour the liquid into a container below the barrel you need to rotate the handle. The handle sits perfectly in the hand and allows smooth hand crank operation. The liquid will be fed until it is over. To stop the overflow prematurely, it is enough to stop rotation of the handle of the pump.
